

# Serving your customers is your business. Making that job a little easier is ours.

At Mechanics Savings Bank, we want to see your business succeed. We listen to what you need and provide you with access to the most relevant technology to help your business grow.

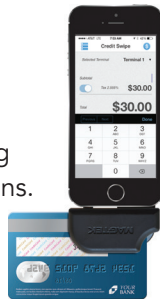

### Tablet-Based POS Solutions

We offer cost-effective next-generation tablet-based point-of-sale solutions for small and medium-sized businesses. Increase sales, reduce costs, manage inventory and employee hours, synchronize with QuickBooks™, and much more.

### Mobile Credit Card Processing

Supports anywhere, anytime card acceptance for mobile devices including card-swiped and key-entered transactions. Electronically captures cardholder signatures at the time of sale and instantly emails receipt to customer.

### Remote Deposit Capture

No more running to the bank to make a deposit! Easily scan, capture, and secure your check images for transmission directly into your bank account.

All you need is a PC and internet connection. This desktop scanner is the size of a standard office phone.

### Gift Cards

Promote your business with reloadable gift cards that encourage repeat business, attract new customers, and boost sales all year long.

### Fanfare Loyalty

Turn customers into regular shoppers with an automatic invitation to join your loyalty program. They can join with as little as a phone number—no coupons, cards, or key chains needed. Fanfare automatically tracks loyalty points, rewards, and offers for you both.

### EMV Chip-Ready Terminals

Are you ready to meet the new liability changes head-on? Help protect both your customers and your business from fraud with a chip-capable terminal.
